

Hello FES Students and Parents,

I hope everyone is doing well! These are unprecedented times that we have not seen in our nation's history!! All of the staff at FES realize this and our hearts go out to our students, parents, and community. We want our students to continue to have some kind of normalcy in their lives, so as a school our teachers will be reaching out to our students/parents to continue their learning.

FES teachers will be sending out work once a week on every Thursday. **This work is not required.** It is only for our students to be able to practice at home skills they have already learned and explore sites via electronic means. You will find several websites that your children can access in our schools website.

We are making every effort as a school to make sure our students are still engaged and learning. For this reason, we will be handing out ipads to our 3rd-6th grade students on Tuesday, March 31st. Here is the schedule;

6th grade 8:30-9:30

5th grade 10:00-11:00

4th grade 11:30-12:30

3rd grade 1:30-2:30

I ask all parents to stay in your vehicle and follow the drop-off/pick-up routines. We will practice "safe distancing" by only allowing four vehicles at a time. We will have table's set-up with the ipads. When it is your turn, you can then disembark from your vehicle and come to the tables which will have your child's teacher name. You will need to sign-off with your signature the ipad agreement. If you have other children in grades 3rd-6th and you would like to pick-up their ipads, please let the staff member know so that we can get them for you and avoid another trip to the school. This will take time so I am asking all our parents to be patient with us since this is a first for us as well.

Take Care and Be Safe!!!

Connie Parker

FES Principal
